

**2008 Digital Catalog**

Rev. July 22, 2008

**Dear Forbes Customer,**

Thank you for your interest in Forbes products. This new Digital Catalog is just another way Forbes Industries™ endeavors to offer its representatives, distributors and ultimately its customers with useful tools to better understand our products. This Digital Catalog is database driven and illustrates product images and their specifications in a simple, easy to use format.

**Minimum System Requirements:**

Forbes Digital Catalog is intended for use on Microsoft 2000 Professional with SP4, 2000 Server with SP4 or later, Windows Server 2003 Standard, Enterprise, or Datacenter editions with SP1 or later, Windows XP with Service Pack 2 or later, or Vista Home Basic and above. A Pentium 600-megahertz or faster processor with at least 512 megabytes of physical RAM is required to run this graphically based application. Running with less memory may cause a severe effect on performance. It is recommended to run with 1 GB of RAM or more and a 1.0 Ghz or greater processor if possible. You should have at least 650 megabytes of free disk space before attempting to install the Forbes Digital Catalog. (Only 200 megabytes of free disk space required if SQL 2005 Express is already installed on your system). For additional requirements, please read the ReadMe file included on your Forbes CD.

**Installation Instructions:**

Insert the Digital Catalog CD into your CD drive and close the drawer. The CD will automatically launch the Installation sub program and load the Digital Catalog on your hard drive. Please follow the screen prompts.

**For Manual Install:**

For systems that don't have an Auto-Launch drive, please follow these steps:

- 1) Insert Digital Catalog CD in your CD drive and close the drawer.
- 2) Click on the "Start" button at the bottom left corner of your desktop.
- 3) Select "Run" and then "Browse".
- 4) Change the "Look in" to your CD drive.
- 5) Double Click on "setup.exe".

Install program will launch and just follow the prompts on your screen. It will automatically install the program's ICONS onto your desktop

**Release Notes:**

This release is the first and will be updated in three to six months with information of any additions, changes and/or corrections.

**Feedback and Technical Support on Digital Catalog Install and Functionality:**

Forbes values your comments, please contact us with your input and suggestions.
