# Portable Laminate Dance Floors

- Low maintenance 4-ft x 4-ft panels are just one highlight of these dance floors.
- The pressure treated composite laminate is exceptional in durability.
- Scratch and water resistant, these all purpose dance floors can be used indoors and outdoors.
- The exterior grade, moisture resistant 3/4" light core plywood provides a lightweight, long lasting, and very durable base.
- A simple tongue and groove design offers easy set-up and tear-down.
- Secures using only a standard screwdriver (included).
- This design reduces the chance of separation during use.
- Choose between many different floor configurations.
- Available with a running plank pattern in Cherry and California Oak, also available in Black, White, and Checkerboard.
- Extra wide aluminum trim has an 11° slope that offers a better transition onto the dance floor (also available in outdoor style trim with a 45° slope). Silver trim is standard on all floors.

Available Finishes

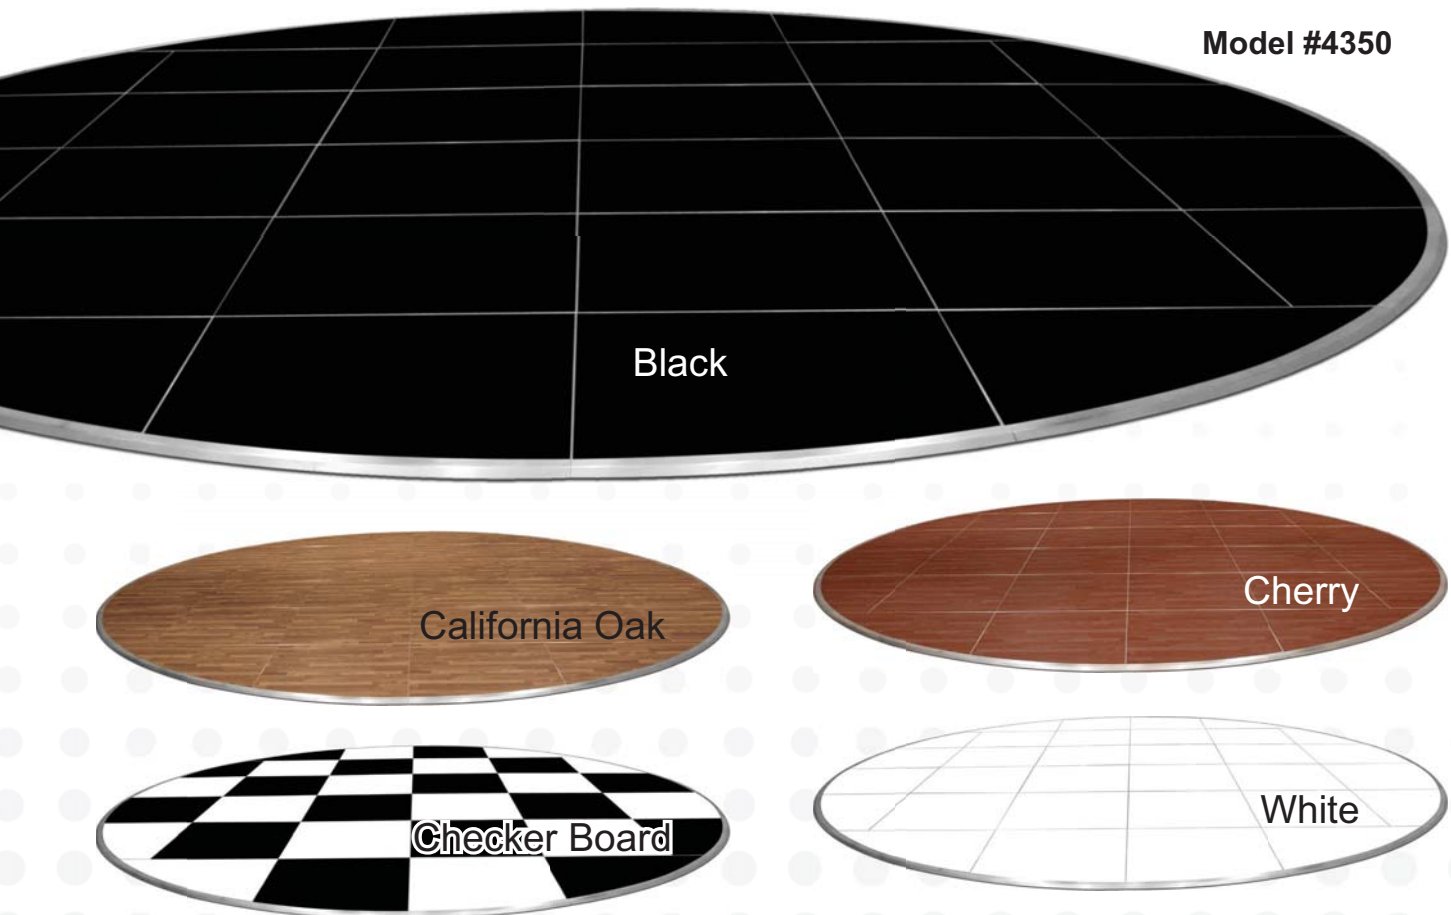

# Round Laminate Dance Floors

- Both models #4350 and #4351 each are two floors in one, a 16-ft x 16-ft square or a 24-ft diameter round dance floor.
- You can also add sections in the middle of the dance floor to elongate it into an oval shape (call Forbes for details).
- These dance floors have many different configurations in color, size, and shape.
- Available in Cherry and California Oak finishes with a running plank pattern. Also available in Black, White, and Checkerboard.

## Available Finishes

---

## Curved Trim

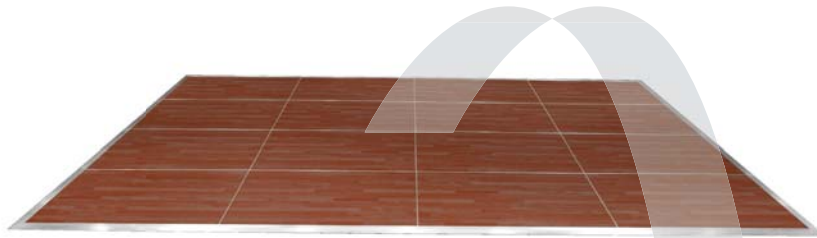

---

Unique curved trim with a 45° degree slope make this round dance floor possible. Each individual trim piece mates up with the corresponding panels which eliminates the margin for error.

# Unique and Versatile

## Simple conversion from a 16-ft x 16-ft to a 24-ft round

Standard 16-ft x 16-ft Square  
Dance Floor Assembly

Remove trim from your  
16-ft x 16-ft dance floor.

Attach outer round  
dance floor panels.

Attach trim to your final 24-ft Diameter  
Round Dance Floor Assembly

# Features, Advantages, and Benefits

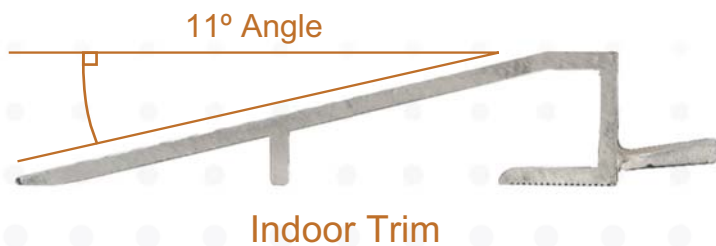

## Connectability

- Simple tongue and groove design offers easy set-up and tear-down.
- Beveled tongue and groove design reduces the chance of panel or trim separation during use.

## Trim

- Lightweight durable brushed aluminum.
- 11° Trim for indoor use allowing for smoother transition onto dance floor.
- 45° Trim can be used indoor as well as outdoor.

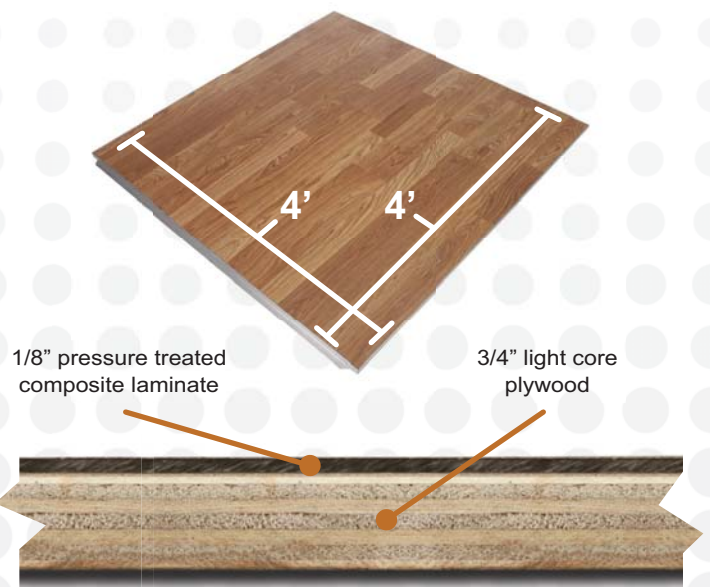

Indoor Trim

Indoor / Outdoor Trim

## Panels

- Dance floor panels are 4-ft x 4-ft, constructed of light core exterior grade moisture resistant 3/4" plywood.
- Our 4-ft x 4-ft panels are comparable in weight to traditional 3-ft x 3-ft wood panels making them more user friendly and less labor intensive.

# Floor Configurations
