## HOUSEKEEPING CARTS

### FORBES HOUSEKEEPING CARTS

The innovative modular design behind Forbes Industries' housekeeping carts makes them easier to assemble, to use, to upgrade and to customize. Basic design consists of two handles, plastic or steel cabinet, two end platforms and four casters. Pick from any of our standard models or choose from our many accessories to design a custom Forbes cart that fits your operation.

Several types of top tray organizers are available to keep amenities separated and where they belong

Privacy panels are available and designed to shield the public's view as well as discourage the overloading of housekeeping supplies

Bag lids are available to keep soiled linens or trash out of the public's view

Handles are available in low profile, ergonomic, single and double bag styles

Several bag sizes, materials, colors, and zipper options are available

Our housekeeping carts with all welded steel cabinets offer superior durability, are double welded at key stress points, and come in a baked on powder coated finish

Housekeeping carts with ABS plastic cabinets reduce weight without compromising durability; reduce noise during operation; and won't dent, scratch, or rust

Full wrap-around bumper and revolving corner bumpers add protection to your properties, doors and hallway walls

Thick gauge steel mounting plates secure casters and make replacement fast and easy

Most carts allow for the addition of various under-deck accessories for a more personalized fit to help keep your operation running at its peak performance

Reinforced Steel Deck is built with 1" square steel tube and sheet steel and has reinforced steel cross braces. Decks are finished in a durable powder-epoxy paint

All casters are independently mounted to the base which makes caster replacement a breeze. Our unique mounting design allows for the widest possible wheel track which enhances stability and safety

### INROOM SERIES

Cluttered corridors? Dirty linens on display to the public? These are things of the past with the new Forbes InRoom Housekeeping Carts. Our unique InRoom carts are designed to allow housekeepers to easily navigate their supplies out of hallways and into guest rooms, effectively decreasing corridor clutter, pilferage, and worker's compensation claims while increasing safety, efficiency, and ROI.

*Watch the video at: [www.forbesindustries.com/inroom-housekeeping-carts](http://www.forbesindustries.com/inroom-housekeeping-carts)*

#### Safety, Security, & Efficiency

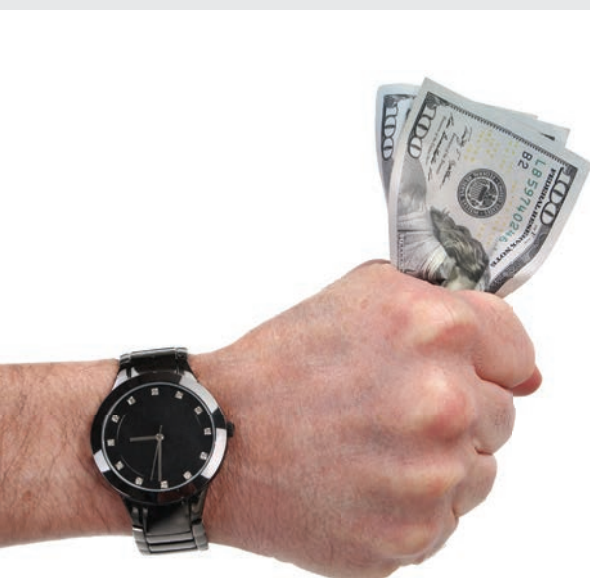

By bringing the cart closer to the work area, we have helped **reduce worker fatigue** and **worker's compensation claims**. It just makes sense to keep the tools for the job near at hand so that one is not wasting time and energy trekking back and forth. With the **carts in the room** and the door locked, guest's valuables are **secure** and the housekeeper is **safe**. This will also reduce, if not **eliminate, pilferage** of items from the cart by passing guests and employees.

#### Time is money: Immediate ROI

Protecting your employees from straining and injuring themselves while pushing around a cart that weighs twice what they do is an **ROI** that pays dividends far into the **future**. The Forbes InRoom carts are shorter in length than traditional carts and are available in molded plastic, **greatly reducing** their overall **size** and **weight**. Protecting your walls, door jambs and furniture from damage is an **ROI** you can **realize immediately**. The four revolving corner bumpers and full perimeter fixed vinyl bumper provide **dual protection** for your **walls, entryways, furniture, and fixtures**.

#### Clear hallways = Satisfied guests

Forbes' new InRoom Housekeeping Carts virtually **eliminate guest exposure** to used linens, cleaning supplies, and unsanitary conditions. Guests will greatly appreciate the **clean corridors**, free of housekeeping carts and operations. This will result in an enhanced guest experience which can lead to more **guest referrals** through Internet reviews and social media channels, and more **repeat guests** in the future.
